

Previous Parts

Part 1: The two kinds of ∞

Deceiving: Run around ∞ - offered by Shitan

True: Straight Path ∞ - offered by Allah

Part 2: How the Shitan Tricks Adam using the sweat dream of ∞

He tricked our grand father Adam to eat from the tree by
promising him the sweat dream of ∞. شجرة الخلد

He tries to trick us using the same way, by offering us the run
around ∞ in this life.

- Delima – How to imagine the ∞ of Allah?

We can't imagine Allah

النَّبِيِّ فِي شُعْبِ الْإِيمَانِ: تَفَكَّرُوا فِي آلاءِ اللَّهِ، وَلَا تَفَكَّرُوا فِي ذَاتِ اللَّهِ فَتَهْلِكُوا

- Solution: Since the universe is the product of Allah, then the ∞ of Allah will reflect on his creation.

The ∞ of the Universe

- The light can circle the earth 8 times in one second
- The moon is 1 and quarter light seconds away
- The sun is 9 light minutes away from the earth
- The solar system is 12 light hours in diameter
- The nearest star to the sun is Ross 248, and it is 10 light years away

- The Milky Way is the galaxy that contains our Solar System.
- The galaxy diameter is 100,000 light years
- It contains 200 billion stars. 200 Giga stars
- The galaxy moving with a speed of 400 miles per second

- In the 1920s observations by astronomer Edwin Hubble showed that the Milky Way was just one of around 200 billion galaxies in the observable universe
- The nearest galaxy to us is called Coma Berenices is 55,000 light years away from earth

- The observable universe is 14 billion light years because the age of the universe is about 14 billion years (10^9). 14 Giga years
- هل أتى علي الإنسان حين من الدهر
- Because the universe is expanding, the observable universe is now 47 billion light years

- حديث أبي ذر عن النبي صلى الله عليه وسلم (ما السموات السبع والأرضون السبع في الكرسي إلا كدراهم ألقيت في فلاة من الأرض وما الكرسي في العرش إلا كحلقة ألقيت في فلاة من الأرض) تفسير القرطبي
- التسلسل حتي الرحمن علي العرش إستوي
